Suraksha - Heavy Passenger Vehicle

SURAKSHA - In heavy passenger Vehicle Bus drivers provide transportation for millions of people, from commuters to school children to vacationers. There are two major kinds of bus drivers. Tourist and intercity bus drivers transport people within or across States, along routes run within a metropolitan area or county, or on chartered excursions and tours. School bus drivers take children to and from schools and school-related activities.

Bus drivers pick up and drop off passengers at bus stops, stations, or—in the case of students—at regularly scheduled neighbourhood locations and school, all according to strict time schedules. Drivers must operate vehicles safely, sometimes in heavy traffic. They also cannot let light traffic put them ahead of schedule so that they

miss passengers. Bus drivers drive a range of vehicles from 15-passenger buses to that can carry more than 100 passengers.

Bus drivers must possess strong customer service skills, including communication skills and the ability to manage large groups of people with varying needs.

The courses consciously incorporate a very high level of visual content like photographs, films, graphics and animation for maximum impact. They are conducted with a high degree of interaction and participation of Trainees and tackle all levels of literacy and understanding in all major Indian languages.

Course Content & Methodology

SURAKSHA, course for HPV, The courses employ a participative system using computer-based projection of audiovisual material developed specially for India. The major topics covered are:-

- Rules of the road incl. traffic laws
- Diverse road user behaviour
- Sharing the road, courtesy and etiquette
- Factors influencing driving – stress, alcohol and drugs
- Driving under difficult and potentially dangerous conditions – weather, terrain, traffic, visibility
- Defensive driving incl. hazard perception, (driving posture, braking, intersection approach, overtaking,)
- Preventive maintenance and vehicle check
- Accident related first aid and how to manage an emergency situation
- Special responsibilities of HTV driver

- Soft skills (on passenger handling , personal development)
- Luggage and safety

The courses include pre and post course written tests/grading and, if desired, an on-the-road drive and a non-invasive medical examination to test suitability for driving.

All successful participants are awarded a proficiency certificate that is highly prized in the industry.
