# Disha

## Road Safety Awareness Program

DELHI ■ MUMBAI ■ BANGALORE ■ HYDERABAD ■ CHENNAI ■ KOLKATA ■ VADODARA

## What is Disha?

**DISHA** is a condensed road safety awareness program, structured for working executives, schools/colleges or special groups like families of corporate personnel who cannot invest sufficient time in a detailed SURAKSHA course. However, they would still like to imbibe the benefits of road safety training, defensive driving skills and respect for the rights of other road users, which are the most important constituents of SURAKSHA.

## Course Content & Methodology

The course is very interactive, with considerable audience participation, and combines substantial use of visual aids such as slides and video films to emphasise the subjects.

The course can be Scheduled for 2 to 4 hours, and if required, even conducted in-house.

The course can be conducted in-house at customer premises for groups up to 40-50 participants.

### The major topics covered are:

- Coping with diverse road user behaviour
- Road rules & regulations
- Coping with hazardous driving conditions
- Safe road user habits and skills
