Suraksha

Post Licence Driving Course

DELHI ■ MUMBAI ■ BANGALORE ■ HYDERABAD ■ CHENNAI ■ KOLKATA ■ VADODARA

What is Suraksha?

SURAKSHA is a set of specialized training courses for licensed drivers. Content and language of courses and materials have been designed according to the special needs of all vehicle categories and target audiences, e.g. executives, professional drivers, ladies, physically challenged persons etc.

The courses consciously incorporate a very high level of visual content like photographs, films, graphics and animation for maximum impact. They are conducted with a high degree of interaction and participation of trainees and tackle all levels of literacy and understanding in all major Indian languages.

An essential part of all programmes is our highly acclaimed "Safe Driving" manual. Several modules of SURAKSHA are available

from 1 day to 3 days, depending on how much time participants can spare and their interest in specific vehicle categories.

Driving assessment, demonstration drives and feedback/counselling are all optional parts of the SURAKSHA courses.

SURAKSHA is designed for drivers who already hold licences for 2-wheelers (motorcycles and scooters), LMVs, HTVs (goods & passenger), public transport and special transport like tankers, carriers of hazardous goods, emergency vehicles (ambulances, fire-fighting vehicles, police vehicles etc.) and industrial vehicles (forklifts, trucks for material handling, construction and earth-moving equipment etc.).

Each module is custom designed to meet the needs of specific user groups and could even include clients H.S.S.E (health safety security and environment) policies.

Requirements for both, professional drivers and people who drive their own vehicles, have been met for in SURAKSHA.

Many of India's leading companies, several diplomatic missions and a variety of organisations ranging from NGOs to Government departments use **SURAKSHA** programs regularly to train their personnel in road safety and have reported a significant improvement in their safety records.

We let our products be judged by the companies that use them.

Course Content & Methodology

SURAKSHA courses consist of class-room theory, demonstration and practical sessions. The major topics covered are:

- Road markings and traffic signs
- Diverse road user behaviour
- Rules of the road incl. traffic laws
- Sharing the road, courtesy and etiquette
- Factors influencing driving – stress, alcohol and drugs
- Appropriate speed and following distance
- Driving under difficult and potentially dangerous conditions – weather, terrain, traffic, visibility
- Defensive driving, hazard perception, intersection approach, overtaking, braking
- Stress and fatigue management
- Preventive maintenance and safety devices (Seat-belts, Airbags, ABS, Mirrors etc.)
- Active and passive safety measures
- Accident related first aid

The courses employ a participative system using computer-based projection of audio-visual material developed specially for India.

Training aids include simulators, "virtual" situations and a real size sectionised working model of a car that demonstrates all operating auto components like the engine, power transmission and electrical systems.

The courses include pre and post course written tests/grading and, if desired, an on-the-road drive and a non-invasive medical examination to test suitability for driving.

All successful participants are awarded a proficiency certificate that is highly prized in the industry.
