Road Safety Refresher Program

DELHI ■ MUMBAI ■ BANGALORE ■ HYDERABAD ■ CHENNAI ■ KOLKATA ■ VADODARA

## What is Jagriti?

**JAGRITI** is a set of refresher training programs. We strongly feel that all basic road safety training needs to be reinforced and supplemented by refresher programs for sustainable development of safe and defensive driving skills and practices.

JAGRITI is usually a half-day course that consists of class-room sessions. It may be supplemented with an additional driving assessment, if required.

## Course Content & Methodology

### The topics covered are:

- Coping with diverse road user behaviour
- Pedestrian safety.
- Alcohol and its effects
- Traffic control devices – road signs & markings
- Rules of the road
- Qualities of a good driver
- Fatigue & stress management
- Difficult & dangerous driving conditions – weather, terrain, traffic and visibility
- Defensive driving techniques including hazard perception

The program is very interactive with considerable audience participation and combines substantial use of audio-visual aids such as slides, graphics and video films to emphasise the subjects.

# Jagriti Training
